Manufacturing a nuclear future

SC@nuclear: a nuclear future
www.nuclearsupplychain.com

Best Western Webbington Hotel, Loxton, Somerset
Friday 30 October 2009, 09.00 – 16.00

The UK is preparing to embark on an ambitious nuclear build programme. EDF Energy has announced its planned investment in new nuclear build in the UK, with the intention to build four new EPR reactors by 2025. It is expected that Hinkley Point will be the first new nuclear build, a major investment in the South West.

Come and find out about the significant supply chain and employment opportunities at all levels.

SIGNIFICANT BUSINESS OPPORTUNITY – This is your chance to find out first hand about the prospective opportunities in the nuclear supply chain for companies in the South West.

WHY NUCLEAR? – The expansion of the UK nuclear supply chain could generate more than £20 billion worth of work in the years to come. Nuclear energy is a key technology in delivering safe, secure and affordable low carbon energy. This will give local suppliers a head start in a sector set to expand strongly both nationally and internationally. The construction process of Hinkley will require thousands of local people to work on the power station.

FIRST HAND INFORMATION – Come and speak to key nuclear industry experts and decision-makers, including EDF Energy and the main contractors, about how your company could become part of the nuclear supply chain. Interactive sessions, presentations and one-to-one access with excellent networking opportunities will focus on the key quality assurance and accreditation requirements, market structure and business support – a perfect opportunity for all business to find out more.

WHO SHOULD ATTEND? – The event is aimed at civil, mechanical and electrical engineering companies and associated service providers of all sizes including SMEs. This event will put you in direct contact with EDF Energy, Areva, Westinghouse and Tier 1 companies which are looking to expand their supply chain partnerships now.

HOW DOES IT WORK? – The event is being organised by the NIA and sponsored by the Department of Energy and Climate Change's Office of Nuclear Development (OND), EDF Energy and the South West Regional Development Agency.

- Numbers are strictly limited to 200 places – maximum two per company.

SC@nuclear – is an industry/government initiative aimed at providing information on how to get involved in the nuclear new build scene. It covers the requirements for potential suppliers, as well as the support available - to companies currently working in the sector, those not already involved, or those considering returning to nuclear.
